

## Catalog of Marine-Industry Education & Training Institutions

What types of education and training do you need to work in the boating industry? High school vocational courses are available, as well as numerous college and technical programs. For incumbent workers, those looking to make a career change or those returning to the workforce, advanced technical training is available in a variety of industry training, education, certification and professional development opportunities to prepare for a specific career in boating.

Learning is a lifelong pursuit. From high school to post secondary to industry continuing-education programs, use the catalog below of nationwide training and education programs to find out where you can get the technical education and skills required for the boating industry today and in the future.

If your program is not listed, please contact Ed Sherman, Chair of the Professional Development Division at [esherman@abycinc.org](mailto:esherman@abycinc.org).
